

BIOACETATE S70

A SUSTAINABLE
EYEWEAR MATERIAL

ABOUT BIOACETATE S70

GOAL: PROVIDE A SUSTAINABLE MATERIAL BETTER FOR YOUR HEALTH AND BETTER FOR EARTH

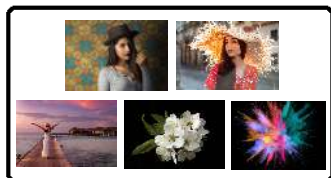

BioAcetate S70 is a sustainable and high-performing material used in various applications. The material comes from plant-based renewable resources, is biodegradable according to ISO-14855, and is free from any harsh or harmful chemicals.

Other than its numerous eco-friendly benefits, BioAcetate S70 also provides vast performance benefits in its final products. This includes its Hardness Enhanced CA (HECA) properties. All BioAcetate S70 products benefit from these advantages.

BioAcetate S70 comes in two forms: (1) pellets/granules for injection-based applications and (2) sheets/slabs for acetate sheet CNC applications. The following color booklet displays the various colors/designs commonly available for BioAcetate S70 sheets/slabs. Custom colors/designs are also available upon request.

*All pictures are for reference only and actual colors/designs may vary slightly.

TABLE OF CONTENTS

pp. 04-08

Introduction to All Series

pp. 09-17

BAY Series, Tortoise Havanna

pp. 18-25

BAA Series, Stirring Mix

pp. 26-32

BAB Series, Stirring Mix

pp. 33-72

BA1 Series, Single Colors

pp. 73-75

BA0 & BAW, Black & Transparent

Sustainable Fashion

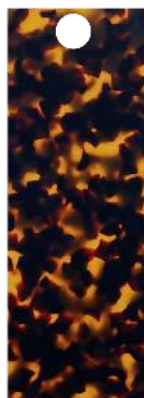

BioAcetate S70® Sheets

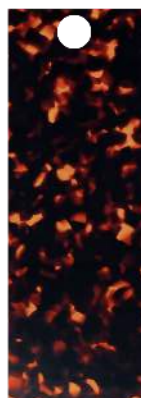

Product Description 产品描述	Tortoise 玳瑁色
Technology 工艺	Block 压板
Series Model 型号	BAY
Front Size 前框尺寸	175*480mm
Temple Size 腿尺寸	175*480mm
Thickness 厚度 (mm)	4.0, 6.0, 8.0
